

RMR-141 PRO CONCENTRATED FORMULA DISINFECTANT & FUNGICIDE

SELL SHEET

RMR-141 Concentrate disinfectant is a versatile solution that serves as both a cleaner and a fungicide. This advanced formula is an EPA registered product with a positive charge, and offers a greater number of kill claims. This concentrated formula has a more aggressive approach compared to the RMR-141 RTU. Our powerful quaternary ammonium chloride blend is the preferred choice for water damage restoration, sewer cleanup, mold removal, and surface disinfection in various settings, including hospitals, schools, municipal buildings, public transit, gyms, households, and more!

Kills 99.9% of household and odor causing bacteria

Effective against SARS-COV-2, the virus responsible for Covid-19

EPA registered

Multi-surface cleaner

Quaternary Ammonium Chloride Blend

KILLS OVER 140
MICROORGANISMS

3 YEAR SHELF LIFE

MIX 2oz OF PRODUCT
WITH 1 GALLON OF WATER

HOSPITAL GRADE
DISINFECTANT

CLEAN, DISINFECT & DEODORIZE WITH A SINGLE PRODUCT

How To Use:

Mix 2oz. of concentrate with 1 gallon of water

SPRAY

Spray desired surface until covered. Hold bottle 6-8 inches away from surface

WIPE

with cloth, paper towel, or microfiber towel until dry and polished

REPEAT

for heavier soiled surfaces repeat step 1 and 2. Light scrubbing may be required

Disinfect/Clean/Deodorize: Preclean all heavily soiled surfaces prior to product application. Apply product with a sprayer, cloth, sponge or other suitable applicator until surface is thoroughly wet. Maintain saturation for 10 minutes, wipe away excess or allow to air dry. Do not use on glasses, dishes or utensils.

Fungicidal: When treating surfaces to kill mold and mildew, spray solution on surfaces, making sure to thoroughly saturate. Maintain saturation for 10 minutes then remove excess or allow to air dry.

Amazon Rating: 4.5/5 ★★★★★

“Following hurricane Ian, which inundated our home on a barrier island, we were growing a bumper crop of mold, especially in the wine cellar. We diluted the convenient packs of concentrate and simply sprayed everything in the wine cellar and other places the mold was growing. It worked! The RMR-141 knocked down the growth. Of course, the staining remained, but there was no more growth and the odor is quite pleasant. Highly recommended.”
